ties in which we were involved; and the effect of the policy was so apparent apon the Bordsr States that these people in South Carolina precipitated the attack upon Fort Sunater, instead of walting a few more days for its evacuation. This letter of the commissioners, as I have said, was written on the 12th of March. Judge Camphell, than whom a more honorable man does not live, states that every in-

stion of the second States was clearly, defluctly, and emphasically avowed by the commissioners sent to Washington to settle all difficulties. The War Proclamation of Mr. Lincoln was issued on the 15th of April, and had been the subject of a Cabinet aelberation and outside consultation, as all know, especially with Senator Douglas, before the 12th of April. Yet this is relied on as one of the reast is for this proclamation. The other reason, the invitation to privateers, is still more remarkable. The Confederate Congress did not meet until the 20th of April, and there was no law authorising privateers, unilatter that date, and the genifeman must have alluded to mere newspaper threats, that such policy would be adopted. Yet healess the realized to bound at least is the ellect of the answer. It boundate is disobeyed by the authorisy of Mr. Li coln. Mr. Mallory is for Men and Money. We invite particular attention to a communication which we print this morning giving Mr. MALLORY's answers, in his own words, to some interrogatories relative to the Issues before the people of this

district and the country.
It will be seen that Mr. Mallony ignore the solemn, formal acts of ten millions o freemen in the clevea seceded States-tha he regards their declarations of indepen dence, to which their lives, their fortunes and their sacred honor are pledged as so much waste paper-that he considers Vir gluia, Tennessee, Louisiann and the other Statea of the Sonthern Confederacy as members yet of the old Union-and that he regards Mr. Lincoln as still the President of the States and the people who have chosen General Davis as the Chief-Executive officer of their Government.

Had he lived in England, he would not have recognized the Independence of the United States of America-he would have continued to claim them as English prov Inces-he would have continued the was against the colonies for twice seven years for the defense of the British Crown!

As it is, ignoring that solemn declaration of our own State Constitu tlon - "That all power is Inherent In the people, and all free Governments are founded on their authority, and insti tuted for their peace, safety, happiness, seenrity, and the protection of property. For the advancement of these ends, they have, at all times, an inalienable and inde feasible right to aiter, reform, or aboils! their Government, in such manner as they msy think proper"-ignoring this solemi declaration, common to the Constitution of all the States, he desies to the people of Virginia, North Carolina, South Caro lina, Alabama, Georgia, Florida, Mississippi Louisiana, Texas, Arkansas, and Tennessee a tight which it is afilemed is "alienable a tight which it is affirmed is "alienable and indefeasible," and Insists on treating standing. It was a feast of patriotism le them as rebels and traitors, for such the are if Lincoln is yet their rightful Presi dent. Ignoring the fact of the separation of the States, he virtually allrms that it is the duty of the President to extend the jurisdiction of the United States over the Confederate States, to retake the forts and public property in their limits, to execute the laws of the Government at Washington in them, and to treat as rebels those

govern themselves. This is Mr. Mallour's position; and whatever may be said for or against the Constitutional right of secession, whatever may be said for or against the propriety of the course of the Confederate States, we take it for granted the public will see, that a man who is incapable of recognizing and acknowledging a fact of the mag-nitude of this one of the division of the Union, who is so impracticable as to adhere to theories which have been swept nway by stern realities, is so stricken with judicial blindness as to be an unsafe representative of great Interests in any body or before any tribunal on earth.

But Mr. Mallony carries the assumption that the Union Is yet Intact to its logical consequence, and boldly avows that this war is one of defense, and that he would vote men and money to earry it on!

It was once said, that French statesmen would convince their victims, if they could only get a hearing, that their Government had taken towns and conquered provinces in self-defense; but Mr. MALLORY has undertaken a task of greater magaitude in attempting to convince the intelligent people of this District, that Lincoln has violated the Constitution, usurped powers de nied to him in that instrument, invaded the sovereignty of States and the rights of person and property, set at defiance th laws and legal tribunals of the land, armed two hundrel thousand men, blockaded forts, illegally interfered with domestic trade, and invided Virgini: In defense of the Government and the capitoi!

Mr. MALLORY knows that LINCOLN and broken laws; he knows that in fact the Administration has wholly subverted the Government, and established in its stead a despotism unknown to the Constitu tiou, and a thousand times worse than that against which our for efathers took up arms; and he knows, moreover, that not one slugle man of respectability, in the North er in the South, has had the audaeity to maintain that these things are untruc to attempt to justify the legality or constitutionality of Mr. Lincoln's nets! Not one man has attempted this; Mr. MALLORY himself has admitted that they are no warranted in the Constitution or by the aws; and yet he pretends to helieve that war so commenced and so conducted is r war of defense of the Government!

Is it possible that Mr. Mallour is so credulous? Is it possible that he believes the Government can be defended only by entirely subverting and destroying It? He may be in carnest, but he cannot convince the public of his sincerity. If he is in earnest, he is not a lit man to represent an intelligent people in the Congress; if he is not in carnest, he is unworthy to represen

When was the Capitol in danger? When was it menaced? If the Capitol should fill into the hands of the Southern Con federacy, it will only be in consequence o the necessity o' driving the invaders of Virginia from the border of that State and this Mr. Mallort knows9

The truth 14, that driven to the wall by his Lincoln proclivities, determined to support the Administration in a course which he knows is judefensible, he has

Since writing the paragraphs above, the telegraphic report of the President's proclamation has reached us. We are struck with uningled amazement and indignation. UNION SERMON.—We cheerfully give place to the following excellent notice, irom our fair correspondent, Adelia, of a strong Union sermon preached by Rev. W. H. Black, on Sanday evening:

MR. Editor:—I have not seen in your paper, a notice of a Union sermon, preached on Sunday evening last, in the Ringgold street M. E. Church, in this city, by its pastor, Rev. W. H. Black. In the rear of the pulpit was displayed the flag of the Union end a picture of Warbington. The iext was in Rom. 13th, and enjoins obedence to the powers that be. The sermon was an earnest and eloquent defense of the Union, and a well merited chastisement of ion, and a well merited chastises the Southern traitors, to whom he the epithets, traitors, thieves, liars, bhars and murderers, which richly deserve. and myself:

I. Are you in favor of Kentucky maintaining her position of armed neutrality?

2. If the Federal Government or Confederate Government, should send their forces on our border, are you in favor of repelling their invasion with arms?

3. Are you in favor of the recognition of the Confederate Government?

4. Will you, if elected to Congress, vote for the passage of a law to raise men and furnish money to maintain them, or to maintain these now in the field?

5. Has Lincoln the power and outhority under the Constitution to call out forces from ore than thirty deys after the next (ongress, to quest the South).

onth?

6. Has Lincoln, in our present state of the country, a right to withhold the right to the crit of habeas corpus in any State which has t secreted?

7. It is estimated that the maintaining of c Federalarmy now eners \$1.000.000 per day, e you in favor of continuing this army to bjugate the South?

During my speech here on last Saturday ence, I answered them sub antially as follows:
To the first I answered that I was In wor of Kentucky maintaining her posi-ion of armed uentrality, us long as her commerce shall be undisturbed and her

soil uninvaded.

To the second, I would repel by force my invasion made upon our State without the consent of my State.

To the third, I answer yes; that I would be willing to acknowledge the independence of the Confederate Government.

To the fourth, I answer no; not one dollar would I vote or one man to carry on this naholy war.

To the lifth I answer, no.

To to the sixth, no. The withholding the writ of habeas corpus makes him a usurper and tyrani.

To the seventh, I nuswer again no-not under any circumstances connected with Yours respectfully, H. E. READ.
